

FAISAL ALZAHRANI

Programming And Web Development Technology

As a student in Programming and Web Development Technology at the Communications and Information College, I am building a strong foundation in coding languages such as HTML, CSS, JavaScript, PHP, Bootstrap5 and Python. I am also learning how to use web development frameworks like React, Angular, and Node.js to develop responsive and interactive web applications. In addition to technical skills, I am developing critical thinking, collaboration, and communication skills that are essential for success in the fast-paced and dynamic tech industry. I am always eager to learn new techniques and tools to enhance my knowledge and skills, and I am excited to apply my skills in a professional setting. With a passion for technology and innovation, I am committed to delivering quality work and achieving my goals as a web developer.
